RE: Orange County Grand Jury Report – Emergency Preparedness

Orange County Grand Jury,

The Placentia-Yorba Linda Unified School District has prepared the attached responses to Findings 1-7 and Recommendations 1-5 of the Orange County Grand Jury Report entitled, "Orange County Public Schools: Are they Prepared for Emergencies?"

I hope that all documents are in order and have been answered thoroughly. If there are any questions or concerns, please contact my office at 714-985-8419.

Thank you,

Doug Domene
Asst. Superintendent, Business Services

ORANGE COUNTY GRAND JURY REPORT

ORANGE COUNTY PUBLIC SCHOOLS: ARE THEY PREPARED FOR EMERGENCIES?

RESPONSE SUMMARY FROM THE PLACENTIA-YORBA LINDA UNIFIED SCHOOL DISTRICT

In accordance with California Penal Code section 933.05, a response is required from the Placentia-Yorba Linda Unified School District to Findings 1-7 and Recommendations 1-5.

Finding 1:

With respect to reported constraints on emergency planning and preparation, over half of schools and almost three quarters of districts identified either limited time or funds.

The Placentia-Yorba Linda Unified School District agrees with this finding. If school districts had more personnel and resources, districts would be able to move forward with emergency management planning. At present, limited state funds are available and a federal grant program to support emergency management planning will end in Fiscal Year 2012.

Finding 2:

Six (of 17) school districts have managed to apply for and receive relatively large grants from governmental agencies to greatly enhance their emergency planning efforts, while others have not.

The Placentia-Yorba Linda Unified School District agrees that school districts should seek grant funding. The existing federal grant program will be phasing out in 2012 and other grant programs will need to be identified.

Finding 3:

Some schools anticipate responding to only a few emergency situations (e.g., earthquake and fire), while others have developed plans to respond to over a dozen different threatening situations.

The Placentia-Yorba Linda Unified School District agrees with this finding. Our school district

has developed information for the following emergency situations:

Accidents, Armed Student(s), Bomb Threat, Earthquake, Fire and/or Explosion, Fire – Vehicle, Flood, Hazardous Material Spill, Homicide, Hostage, Poisoning/Bites, Rape, Shooting, Suicide, Suspicious Circumstances, Terrorist Attack, Terrorism, Oral Rehydration

Finding 4:

School districts develop plans with respect to a number of different but overlapping regulations and standards, including those required by the county, state, and the federal government.

The Placentia-Yorba Linda Unified School District agrees with this finding. School districts have developed school safety plans under the Education Code. School districts are also required to comply with state and federal emergency management standards, Standardized Emergency Management System (SEMS) and National Incident Management System (NIMS). Efforts should be made to make these requirements consistent with each other.

Finding 5:

Some schools reported they have not adequately anticipated the needs of students taking prescription medications, or with specialized medical needs, in the event of some emergencies, such as an extended lockdown.

The Placentia-Yorba Linda Unified School District agrees that this issue should be addressed and the Placentia-Yorba Linda Unified School District is focusing on how to meet all students' needs during an emergency.

Finding 6:

School districts are in communication with a variety of local and county departments, agencies, and systems to help them prepare for and respond to disasters or emergencies; not all districts access the same resources.

The Placentia-Yorba Linda Unified School District agrees the different districts may access different resources. It is our understanding that different districts communicate in a variety of ways with first responders, local agencies, and other agencies to support matters of emergency management.

Finding 7:

Few schools have plans or emergency preparation information available in languages other than English.

Our district has not prepared emergency information in languages other than English, but it is our intention to do so in the near future.

Recommendation 1:

Those districts which have yet to identify disaster grant opportunities, especially from governmental agencies, investigate the availability of potential resources. Forming inter-district collaboratives, learning from districts in the county that have been successful, pooling resources, and asking for consultation from the Orange County Superintendent of Schools/OCDE may help in these efforts.

The Placentia-Yorba Linda Unified School District has received grants for emergency preparedness.

Recommendation 2:

Districts review their plans, and the plans specific to each of their campuses, with respect to emergencies or possible disaster situations they have not anticipated.

Each of our school sites has a written safe school plan drafted and submitted by March 1st of each year. The plan is reviewed each year and updated annually.

Recommendation 3:

Districts review their level of compliance with various existing codes, regulations, and liability insurance issues that pertain to emergency preparedness in public schools.

The Placentia-Yorba Linda Unified School District has implemented this recommendation by developing a school safety plan for each of its schools and working with federal, state and local emergency management agencies. The school district has sufficient liability insurance with respect to emergency preparedness.

Recommendation 4:

Districts review their plans, and the plans specific to each of their campuses, to ascertain whether the special medical and/or prescription medication needs of all students are adequately anticipated, especially during an extended disaster situation.

The Placentia-Yorba Linda Unified School District is currently reviewing its plans with respect to the special medical and prescription medication needs of all students and is developing a plan to meet these needs, in the event of an emergency.

Recommendation 5:

Districts survey their campuses with respect to the needs of non- or limited-English-speaking parents and guardians, and develop outlines or summaries of critical emergency planning information in Spanish, Vietnamese, and other threshold languages prevalent in their local communities.

Placentia-Yorba Linda Unified will survey campuses with respect to the needs of non- or limited-English-speaking parents and guardians and will develop a summary of critical emergency planning information in their native language.
